

Pharming Live Program COVID-19 Information

Pharming takes safety seriously. We will adhere to current CDC, state, and local guidelines. Pharming employees and speakers appearing on Pharming's behalf are required to complete a COVID-19 rapid-antigen test prior to event attendance. All attendees are also advised to test within 48 hours of the event. If requested within two business days prior to the event, Pharming will provide a rapid-antigen COVID-19 test free of charge via the mail. If you test positive or are experiencing symptoms associated with COVID-19, please stay home. At the event, masks, gloves, and hand sanitizer will be provided.
